Current-period run
Loan on new scale
Grade N05
Current PD model
Knows grade N05
PD = 0.3%
Genuine estimate
What-if run (prior-period PD model)
Same loan
Grade N05
Prior PD model
Knows grades 1–10 only
PD = 5% (default)
Silent placeholder
Attribution reports a model effect on the allowance
Fictitious: no error, no missing value; the prior model never scored the loan
